DETAILED ACTION
REASONS FOR ALLOWANCE

Claims 25 – 46 and 49 – 53 are allowed.

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach, disclose, or suggest the limitation, "the context transfer manager is common to the plurality of heterogeneous access networks in the communication network." A context transfer manager that is common to a plurality of heterogeneous networks could not be found in the prior art. Wu (Pub. No.: US 2003/0048773 A1) discloses a common node between heterogeneous networks that assist hand-off but it does not specify that a context transfer occurs. Narayanan (Pub. No.: US 2003/0103496 A1) discloses context transfer managers for each individual network but not a common context transfer manager for a plurality of heterogeneous networks. . Fodor (Patent No.: US 7,440,429 B2) discloses a common context transfer manager for a plurality of networks; however, it is not prior art, the application was granted a patent, and the references cited within the patent do not disclose a common context transfer manager for a plurality of heterogeneous networks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
